Employee Handbook — Excerpt (FICTIONAL TEST DATA)

This excerpt is fictional and generated only for software testing. It does not describe real company policy.

Section 4: Remote Work & Flexible Hours Policy

Solstice Robotics supports a hybrid work model for eligible roles. Employees in Engineering, Sales, and G&A; functions may work remotely up to three days per week, subject to manager approval. Manufacturing, Quality, and Field Service roles require on-site presence due to the nature of the work.

4.1 Core Collaboration Hours

All employees, regardless of work location, are expected to be available between 10:00 AM and 3:00 PM in their local office's primary time zone to support cross-team collaboration.

4.2 Home Office Stipend

Employees approved for hybrid or remote work receive a one-time \$750 home office stipend and an annual \$200 equipment refresh allowance, submitted through the Expensify portal.

Section 7: Paid Time Off

- Full-time employees accrue 18 days of Paid Time Off (PTO) per year, front-loaded on January 1.
- New hires accrue PTO on a prorated basis based on start date.
- Unused PTO up to 5 days may be carried over into the following calendar year.
- 10 paid company holidays per year, published annually by HR.
- Solstice Robotics also offers 2 paid "Wellness Days" per quarter, which do not draw from PTO balance.

Section 9: Workplace Safety (Manufacturing Sites)

All personnel entering manufacturing floor areas at the Reno plant must complete Solstice Safety Orientation (SSO-100) and wear approved PPE, including safety glasses and steel-toe footwear, at all times. Robotic test cells are restricted to certified operators only, identified by a green badge lanyard.
